1 Purpose

The purpose of this agreement is to define the scope and responsibilities of the Service Level Agreement (SLA) between **Neo Products Pty Ltd** (hereinafter referred to as 'Neo') and the **Customer** (hereinafter referred to as 'Customer').

2 Scope

This Agreement covers:

- Warranty & Obligations
- Neo Service and Repair support
- Particulars

Acceptance of this agreement by the Customer will be recognised by Neo as authorisation to provide services to the Customer as required by the Customers representatives and its authorised agents.

3 Warranties & Obligations

3.1 Equipment Warranties as per Standard Terms of Trade

Neo warrants that the equipment is newly manufactured and is free from any defects in materials and workmanship.

Neo will rectify any defect in the Equipment which is notified by the Customer within a period of 12 months after acceptance.

Neo warrants that any replacement parts provided to the Customer during the warranty period are free from defects in materials and workmanship. If the replacement parts are found to be defective during a period of 90 days after installation of those parts, they will be rectified or replaced at Neo's expense.

Neo will not be liable for defects resulting from improper use or neglect of the Equipment, whether by Customer or by a third party.

3.2 Neo's Warranty for Services

Neo warrants its services and repairs will be performed with reasonable care and according to its Quality Management System. If warranty service involves the replacement of a product or part, the replaced product or part becomes Neo property, and the replacement product or part becomes the property of the Customer.

The replacement product or part provided by Neo may not be new, but it will be in good working order and functionally equivalent to the original product or part. The replacement product or part shall be warranted for the balance of the period remaining on the original product.

Products and parts presented for repair may be replaced by refurbished products or parts of the same type rather than being repaired. Refurbished parts may be used to repair the product; repair of the product may result in loss of data, if the product is not capable of retaining user generated data.

Only unaltered parts and assemblies are eligible for cover under this SLA. The serial label must be intact and provided to determine warranty status.

3.3 Customer's Warranties

The Customer represents and warrants to Neo that:

- (i) it will use Neo's product/equipment/part strictly in accordance with these [terms](#) of trade
- (ii) it will provide thorough and accurate information to enable Neo to meet the terms of this Agreement
- (iii) It will provide Neo with the product or part in a timely manner to allow Neo to carry out its obligation in accordance with this Agreement.
- (iv) parts must be returned to Neo in their original form. Any altered parts or assemblies will be deemed out of warranty.

If the Customer does not meet the above, Neo will notify the Customer and this Agreement and each Service within this agreement is voided by the Customer. Neo will notify the Customer that this has occurred, and any services will be charged as per the Schedule of rates. For details on the rates please see section 5.4 Schedule of Rates.

If a fault can be identified and Neo acknowledges that the fault is warranted by Neo investigation/analysis time will be provided at no charge to the Customer. However, if it is deemed the fault is not warranted by Neo, See: [What This Agreement Does Not Cover](#), charges will apply at Neo's Standard Schedule of Rates.

If the issue cannot be resolved remotely, Neo will advise the Customer of next steps. This may require the product to be returned to base for assessment per our standard warranty Terms.
